PROJECTS

- I have undertaken a **Consultancy Project for a hotel** in March 2022, involving the creation of a website for their catering service. The website was developed using **HTML, CSS, PHP, and MySQL** for a comprehensive and dynamic online presence
- I have developed a **Doctor Appointment Application** for my college project, utilizing XML and Java programming languages, integrated with Firebase for efficient data management
- Recently, I'm working on a website created using the **MERN Stack** for an electrical shop as a consultancy project, serving as my final year project.

CERTIFICATES

Workshop: Attended a workshop on **UI/UX Design** using Android Studio organized by Kongu Engineering College.

Quiz: Participated in a National Level Quiz on Program Solving and **Python** Programming conducted by Mandsaur University online.

Course: Successfully completed an online course on **MySQL & PHP** offered by CHOLAN TECHNOLOGIES in Perundurai, Erode.

Industrial Visit: Conducted an industrial visit to AESTER INDIA PVT LTD in Cochin, Kerala.
